This notice serves as a reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to APOs of their responsibility concerning disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review, revocation, and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22 and 353.25.

Dated: February 3, 1997.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–P

Centers for Disease Control and Prevention, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instruments described below, for such purposes as each is intended to be used, is being manufactured in the United States.

Docket Number: 96–114. *Applicant:* Centers for Disease Control and Prevention, Atlanta, GA 30341–3724. *Instrument:* ICP Mass Spectrometer, Model MAT ELEMENT. *Manufacturer:* Finnigan MAT, Germany. *Intended Use:* See notice at 61 FR 59417, November 22, 1996. *Reasons*: The foreign instrument provides a magnetic sector mass analyzer with sensitivity to detect trace amounts (to parts per quadrillion) of radionuclides in liquid samples. Advice received from: National Institutes of Health, November 25, 1996.

Docket Number: 96–115. *Applicant:* Horn Point Environmental Laboratory, Cambridge, MD 21613. *Instrument:* Fluorometer. *Manufacturer:* Heinz Walz, GmbH, *Germany*. *Intended Use:* See notice at 61 FR 59417, November 22, 1996. *Reasons:* The foreign instrument provides: (1) an actinic intensity of up to 5000 W/m^2 and (2) detection of chloroplast or algal suspensions to 1 mg chlorophyll per liter. Advice received from: National Institutes of Health, November 25, 1996.

Docket Number: 96–118. *Applicant:* The Pennsylvania State University, University Park, PA 16802. *Instrument:* Accessories for CCD Microscope. *Manufacturer:* Linkam Scientific Instruments, Ltd., United Kingdom. *Intended Use:* See notice at 61 FR 66018, December 16, 1996. *Reasons:* The foreign instrument provides: (1) automatic control of temperature with a range of −196°C to 600°C and (2) computer-generated sample imaging with video text overlay on data images for sample identification and recording of operating parameters. Advice received from: U.S. Geological Survey, January 8, 1997.

The National Institutes of Health and the U.S. Geological Survey advise that (1) the capabilities of each of the foreign instruments described above are pertinent to each applicant's intended purpose and (2) they know of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to any of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510–DS–P

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 96–144. *Applicant:* Massachusetts Institute of Technology, Department of Chemistry, 77 Massachusetts Avenue, Building 18, Room 591, Cambridge, MA 02139. *Instrument:* Dual Mixing Stopped-Flow System, Model SF–61. *Manufacturer:* Hi-Tech Scientific, United Kingdom. *Intended Use:* The article is intended to be used to conduct pre-steady-state kinetic studies of the reaction mechanisms of multicomponent enzymes and inorganic model compounds under controlled conditions of temperature, pH ionic strength, solvent composition and oxygen tension. *Application accepted by Commissioner of Customs:* December 27, 1996.

Docket Number: 96–145. *Applicant:* Georgia Institute of Technology, Georgia Tech Research Institute, 225 North Avenue, Atlanta, GA 30322–0834. *Instrument:* Ion-Assisted Deposition System, Model APS 1104. *Manufacturer:* Leybold AG. *Intended Use:* The instrument will be used in studies of luminescent materials (SrS:Ce,F; SiON; Al_2O_3; Indium tin oxide; ZnS:Mn) that will be deposited as very thin films on substrate materials. The main thrust of the research will be development of the ion assisted deposition technique to deposit the above materials in crystalline form at relatively low substrate temperatures (200–500°C). In addition, the instrument will be used for educational purposes in graduate level special topic courses in thin film disposition science offered in the Electrical Engineering, Physics and Material Science and Engineering Schools. Application accepted by Commissioner of Customs: December 27, 1996.

Docket Number: 96–146. *Applicant:* University of California, San Diego, Scripps Institute of Oceanography, 7835 Trade Street, San Diego, CA 92121. *Instrument:* (2) Directional Waverider Buoys. *Manufacturer:* Datawell, BV, The Netherlands. *Intended Use:* The instrument will be deployed across the continental shelf to monitor and verify wave evolution modeling efforts. Application accepted by Commissioner of Customs: December 30, 1996.

Docket Number: 96–147. *Applicant:* U.S. Geological Survey, Box 25046, MS
